PROFESSIONAL SUMMARY

Technical Project Manager with **3+ years in IT delivery**, leading cross-functional teams across mobile, web, and SaaS platforms. Transitioned from engineering operations into technology delivery, bringing strong process discipline and stakeholder management. **Promoted to TPM within the first year** at MMF Infotech for delivery ownership. Proven track record managing **10–15 concurrent programs** at **95% on-time delivery**, leading teams of **20+**, and serving international clients across US, UK, Canada, Europe, and APAC. Google-certified Project Manager experienced in Agile execution, SDLC, risk & RAID management, stakeholder governance, and AI-assisted delivery.

CORE COMPETENCIES

Program & Project Management • Agile / Scrum Execution • SDLC • Dependency & Release Management • Risk & RAID Management • Stakeholder Governance • OKRs, KPIs & Roadmap Planning • Vendor Management • Cross-functional Team Leadership • Client Relationship Management • Shift-Left QA & Release Sign-off

TECHNICAL EXPOSURE

Tools: JIRA, Confluence, ClickUp, GitHub Actions, Figma

Cloud & Platforms: AWS EC2 / S3, Firebase, Shopify

Tech Stack (Hands-on): React.js, Node.js, Flutter, FlutterFlow, MySQL, HTML5, CSS3, JavaScript

QA & Testing: Manual, Regression, Smoke, Sanity, UAT, Selenium, Cypress, API Testing

AI & Automation: Claude Code (AI-Assisted Dev), ChatGPT, Gemini, Notion AI

PROFESSIONAL EXPERIENCE

MMF Infotech Technologies Pvt. Ltd., Indore, India

Sep 2022 – Present

Product & services company — mobile, web, and e-commerce solutions

Technical Project Manager & QA Lead

Mar 2023 – Present

- Directed end-to-end delivery of **40+ mobile, web, and e-commerce solutions**, ensuring scalability, performance, and alignment with business objectives.
- Managed **10–15 concurrent projects** with **95% on-time delivery rate**, improving predictability and stakeholder confidence.
- Led cross-functional teams of **20+ engineers, designers, and QA professionals** — driving Agile adoption, sprint optimisation, and delivery quality.
- Facilitated all Agile ceremonies — sprint planning, backlog grooming, daily standups, sprint reviews, and retrospectives; owned dependency, risk, and roadmap management.
- Served as primary point of contact for international clients across **US, UK, Canada, Europe, and APAC**, translating requirements into roadmaps aligned to OKRs and KPIs.
- Improved client satisfaction by **20%**, contributing to repeat engagements and long-term partnerships.
- Performed final release testing and quality sign-off, ensuring **zero critical defects** at launch.
- Implemented AI-powered reporting and automation workflows, reducing manual effort and accelerating decision cycles.

QA Engineer

Sep 2022 – Feb 2023

Promoted to Technical Project Manager within the first year

- Executed functional, regression, smoke, and UI testing across live mobile and web projects, identifying critical defects before production releases.
- Authored detailed test plans, test cases, and defect reports — establishing documentation practices later adopted team-wide.

Infograins Software Solutions Pvt. Ltd., Indore, India — QA Intern

Jun 2022 – Aug 2022

- Performed manual testing for a live cryptocurrency platform — ensuring transaction accuracy and business logic integrity.
- Designed and executed functional, regression, and UI test cases, improving product stability ahead of release.

- Proposed UX improvements for web applications, enhancing usability prior to launch.

KEY PROJECTS MANAGED

Affirmare Wellness Tech | Flutter (iOS, Android) · React.js · WordPress | Live

AI wellness app — personalised affirmations & music-based relaxation, with subscription monetisation and multi-instrument music generation; resolved device overheating via in-house performance solution.

ZUMI Veterinary Marketplace | Native iOS & Android · React.js (Admin) | Live

Service marketplace connecting pet owners with veterinary professionals; redesigned payment onboarding, improving user conversion rates.

Zenful-Note Mental Health | Native iOS & Android · React.js (Admin Panel) | Live

Mindfulness app delivered across 3 parallel workstreams; in-app purchase integration and self-reflection feature rollout on schedule.

Nithasab Fintech | FlutterFlow · Firebase · iOS & Android | In Review

Pre-registration platform with referral system and Firebase backend integration; drove pre-launch user acquisition strategy.

Project Tracker Tool (Personal Build) | React.js · Node.js · Gemini Flash AI | Live

Full-stack AI project tracking app for task management and team coordination, with Gemini AI integration for intelligent reporting and decision automation.

CERTIFICATIONS

Google Project Management Certificate — Coursera | Sep 2025 | ID: W8S5SN68E9DB

Focus areas: Agile, Scrum, Risk Management, Stakeholder Communication.

AWARDS & RECOGNITION

- Promoted from QA Engineer to Technical Project Manager within the first year — recognised for leadership and delivery ownership.
- Cash incentive bonuses for consistently delivering projects ahead of schedule.
- 3× Silver Coins for Kaizen process-improvement contributions.
